Welcome to Flender, your steel supplier from the Sauerland.

Uncomplicated – as known for this area – so are we. Our philosophy is based on four pillars: we are flexible, extraordinary, fast and reliable. We like to be judged according to those characteristics.

We are extremely powerful in terms of small quantities of hardened and unhardened spring steel as well as for micro alloyed strap iron. Thanks to our large warehouse capacity and our short lead times, Flender is a reliable supplier for our regular customers within Germany and Europe.

An often neglected subject is material which you don't need anymore. Do you need more space in your warehouse? Flender steel purchases coil goods and table material – this creates valuable warehouse capacity and generates profits at the same time. Please let us know your surplus materials and we would like to provide you with an attractive offer.

Our competitive advantage are our contacts. You will not be passed on from one contact point to another between order entry and final delivery, but you will be supported quickly and reliably from your personal contact throughout all order stages. We are looking forward to getting in contact with you, your Flender team.

Thanks to coil warehouses at several German locations affiliated with certified processing sites we can offer a maximum flexibility. We are known for our delivery reliability beyond national borders. Our own fleet of vehicles brings the smallest 15 kg quantities to the most twisting farmyard on time.

dimensions:
5-2000 mm / width: 0,05-20 mm
cold rolled steels and hot rolled steels
tolerances according to DIN 1544/1624/17222,
standard and fine

standard and fine
rounded edges
naturally rolled edges, coils and bars
hardened and unhardened
also by metre

commercial steels
DC01-DC05 LC / C290-690
(EN 10139 / 10140)

cold rolled steels
DC01A - DC05A
(EN 10130 / 10131)

hot rolled steels
S235JR - S355JR
to DIN EN 10025
DD11 - DD14
to DIN EN 10111

case - hardening steels
C 10E - C 15E
17 Cr 3
16 MnCr 5 - 20 MnCr 5
20 CrMo 4
Bor - alloy steels as
20 MnB5 and alike
to EN 10084 / EN10132-2

heat - treatable constructional steels
C 22E - C 60E
38 Cr 2 - 41 Cr 4
25 CrMo 4 - 42 CrMo 4
51 CrV 4
EN 10083 / EN 10132 - 3/4

low alloy steels
S 355 MC-S 700 MC
HC 260 LA - HC 420 LA
HC460 - HC700
DIN EN 10149 / EN10268

spring steels
C 55 S - C 100 S
to DIN EN 10083 / EN 10132-4
hardened, tempered, polished
(+QT), unhardened
(+A / +LC / +CR) also by metre

stainless steels
1.4301
1.4310 (various hardness)
1.4404
1.4571
to EN 10088 / DIN ISO 9445

zinc - coated steels
plates
skiving steel bands
coils
to DIN EN 10327

cold rolled steels for packing
single - layered
spooled - coils
polished
zink - coated
bluish
black lacqued

FLEXIBLE

No matter which steel product you need, how extraordinary your material requests might be, we will do everything to deliver you with the requested quantity at the highest quality at a competitive price and on time.

EXTRAORDINARY

Thanks to our quick decision making processes we are very flexible. We act within shortest time periods as bureaucratic obstacles and slow processes are unknown to flender steel.

Our economically organized fleet of vehicles and the cooperation with high performing partners help us serving customers in Germany and in the European countries quickly and in an uncomplicated way at any time.

Our total warehousing space of 30.000 qm and our own stocks of about 4.000 to. combined with the constant access to another 17.000 to materials guarantee short ways and hereby short lead times.
