

 **FlenderStahl**  
aus dem Sauerland

All our work shall make only  
one impression: “perfect!”

---

**My name:** Markus W. Flender

**My ambition:** Your perfect steel supplier

**My opinion:** From a trading company you should expect more than  
bureaucratic documentation of your placed order.

Welcome at [Flender-Stahl](#).

## Steel from Sauerland

The Sauerland is one of the most beautiful locations of Germany. This is only one reason why you meet Flender-Stahl here. Furthermore its location in the middle of Germany and Europe is perfect. The proximity to the most important steel service companies, to the harbors in Ruhrgebiet and the Netherlands plus the short ways to plenty of our customers making us flexible, extraordinary, fast and reliable!

We like to get measured at these attributes.

## 01 FLENDER-STAHL

---

Flender-Stahl is a reliable partner for many regular customers in Germany and Europe since more than two decades. Caused by our both locations in Sauerland and in Bratislava we are close to our customers and the persons in charge are "nearby".

The warehouses in several German locations, powerful service centers, the Flender Know How as well as fast logistic provide us and you the critical competitive advantage. A special Flender-strength is the small quantities hardened and unhardened spring steels as well as micro-alloyed steel strips.

A frequently neglected subject is material, which you do not need any longer! Do you need space in your stock? Flender-Stahl buys almost every steel-coils as well as plates and bars. That gives you valuable stockyard and cash. Tell us your excess stock and we are looking forward submitting you an interesting offer.

## 02 FLEXIBLE

Only persons, who know what the market requires, are able to react appropriate and flexible. The material you require, maybe waits for you at Flender-Stahl.

<b>Stock capacity I:</b>	5.500 to.
<b>Stock capacity II:</b>	32.000 to.
<b>Dimensions:</b>	width from 5-2.000mm / thickness von 0,05-20mm
<b>Achievements:</b>	hot and cold rolled material
<b>Tolerances:</b>	acc. to EN-standards or customers' requirements

### Customers' requirements

- standard- until finest tolerances
- round edges, chased edges, split edges
- coils and bars also available by the meter
- hardened and unhardened material

### Cold rolled steel

DC01-DC05 LC / C290-690  
(EN 10139 / 10140)

### Cold rolled steel strips

DC01A - DC05A  
(EN 10130 / 10131)

### Hot rolled steel

S235JR - S355JR  
to DIN EN 10025  
DD11 - DD14  
to DIN EN 10111

### Case-hardened steel

C 10E - C 15E  
17 Cr 3  
16 MnCr 5 - 20 MnCr 5  
20 CrMo 4  
Bor - alloy steels as  
20 MnB5 and similar  
to EN 10084 / EN10132-2

### Construction steel for heat treatment

C 22E - C 60E  
38 Cr 2 - 41 Cr 4  
25 CrMo 4 - 42 CrMo 4  
51 CrV 4  
EN 10083 / EN 10132 - 3/4

### Micro-alloyed steel

S 355 MC-S 700 MC  
HC 260 LA - HC 420 LA  
HC460 - HC700  
DIN EN 10149 / EN10268

### Spring steels

C 55 S - C 100 S  
to DIN EN 10083 /  
EN 10132-4  
hardened and tempered  
polished (+QT)  
as well as unhardened  
(+A / +LC / +CR)  
also available by meter

### Stainless steel strips

1.4301  
1.4310 (various hardness)  
1.4404  
1.4571  
to EN 10088 /  
DIN ISO 9445

### Zinc-coated steel

plates and bars  
steel strips  
coils  
to DIN EN 10327

### Steel for packing

one-layered winding  
blank  
zinc-coated  
blued  
black varnished

## 03 EXTRAORDINARY

It doesn't matter, which kind of steel you need. How extraordinary your requirements will be, the probability is very high, that your product is in stock. Grades and quantities, which are not in stock, will be offered with reliable delivery dates. Our forward agencies and express services will deliver them short-termed.

For our adherence for delivery dates we are well-known. That's it, that makes Flender-Stahl extraordinary.

## 04 FAST

---

Our certified service centers and the low-leveled hierarchy within the enterprise allow us a minimum of reaction time. In a minimum of time it is possible to produce smallest quantities, special dimensions in wished grades out of our own, almost inexhaustible stocked material. Our daily updated overview and the access to further 32.000 tons from domestic and foreign suppliers provide us the critical advantage regarding the outstanding delivery speed.

## 05 RELIABLE

The Flender-Team is composed by top-class specialists. Hardly nobody knows the steeltrading-business better than the sales-team of Flender-Stahl.

The logistics experts can give advice regarding all transport and customs questions. It does not matter if you need stocked material “on call” or an impossible delivery date, which has to be realized. At Flender-Stahl you have ONE qualified person in charge and will not be passed through the whole company.

We are looking forward to you! Your team of Flender-Stahl from Sauerland.
